Meat Sent to Gouverneur Hospital Undergoing Inspection.

Dr. Biggs, the bacteriologist of the Board of Health, is at work to-day on two specimens of beef, one of which was sent from Gouverneur Hospital and the other from a carcass seiged and condemned by Meat Inspector Bryce Mars, in the slaughter-house of Charles McDonaid, at Forty-fourth street and the East River, yesterday afternoon. The specimen from Gouverneur came from the market of David P. Arnoid, M. East Ninth street, who has the contact for furnishing meat to Bellevius and its several tributary hospitals. No letter of explanation accompanied the Last Ninth street, who delivered it at the aboratory merely stated that the meat was unwholesane and the Board of Health for examination.

At the hospital this mounts for use, at the hospital this mounts for its street in the Gouverneur Hospital order by mistake. The house surgeon, however, thought it obligatory upon him to send the meat to the Board of Health for examination.

Dr. Patterson, assistant to Dr. Biggs, stated that the meat was unwholesome and in the earlier stages of putrefaction. He thought it would be dangerous to eat t and will so report to the Board of Health, which will, in all probability demand an explanation of Mr. Arnold. The other specimen was from a cow that was killed yesterday and quartered preparatory to selling it to east-side butchers. Inspector Mars arrived at the slaughter-house just in time to prevent this and carted every particle, excepting the piece to be examined, to the offal dump.

dump.

In his report to Acting Chief Chemist Dr. Lederle this morning Inspector Mars states that the cow was undoubtedly afflicted with tuberculosis. It was purchased alive Monday by Mr. McDonald in the New Jersey stock yards from a Mr. McPherson, a commission dealer, and had come from the farm of J. Knapp, in Sugar Loaf, Orange County, N. J.

Dr. Roberts and Dr. Lede, te nave arrived at the joint concusion, that stock from that section hereafter coming to the city, shall be subjected to a most rigid examination.

The laughable side of the case presented itself then, and the performance continued amid good-natured raillery and badinage between friends in the audience. Bets were offered regarding the chances of certain inoculations "tak-

Several hundred persons were vaccinated last night in a raid made by the special vaccinators of the Brooklyn Health Department under the direction of Chief Clerk Andrew O'Shea, of the Bureau of Contagious Disenses.

The locality covered by the physicians included Johnson avenue, Moore street, Ewen street and Humboldt street. The vaccinators, who are accompanied by 159 policemen, met with no opposition except in one house where an excited German woman threatened to brain Mr. O'Shea with a frying pan.

She was held down to the floor by a couple of policemen while the vaccine was applied. When the operation was concluded she semed charrined because she had made so much trouble.
